Business Essentials

Protect your business and save a bundle

Free equipment. Free installation. Free month.

Covad has just made it easier to help keep your business safe and your online communications secure. Add Covad managed security services to your broadband order this month, and get a free month of security service, free equipment, and free installation.

Get Protected

These days it takes multiple strategies to thwart the bad guys, including:

- **Managed Firewall**—Covad Managed Firewall service is your first line of defense in protecting your business assets from external threats. By regulating all inbound and outbound traffic on your network, it controls what information gets in or out, and which applications can be accessed.
- **Managed Site-to-Site VPN**—Covad VPNs shield your sensitive information as it travels between sites to help ensure it won't be modified or viewed while in transit.
- **Remote User VPNs**—Securely connect mobile employees and telecommuters to your corporate network, using their PCs and whatever broadband connections they have available.

Save a Bundle

This month you can save big on Covad security services:

- ➔ **Free installation**—We install it free at the same time we install your broadband service.
- ➔ **Free equipment**—We include the security appliance at no charge—an \$800 value.
- ➔ **Free month**—We will credit you back one full month's service fee for any of these services you order: Managed Firewall, Site-to-Site VPN, or Remote User VPNs.

This offer applies to new broadband customers only. Security services must be ordered and installed at the same time as the new Covad broadband service. This offer can only be combined with new orders for Covad Business DSL, Business DSL Plus, and Business T1 services.

Offer Ends
May 31, 2008

* Offer expires May 31, 2008. Covad Managed Security services require a minimum one-year contract. Customers will be charged sales tax based on the \$800 value of the equipment. Customers who disconnect service within 30 days after installation will be billed \$500 for the equipment unless it is returned per Covad's instructions. This offer can be used in addition to offers on qualifying Covad broadband services.
